Are Your Beaches BlueTube™ Beaches?

BlueTubes are bright blue, easy-to-spot containers that hold bags. They are placed at beach cross overs so people can grab a bag on their way to the beach, pick up trash, and throw it away in the garbage cans at beaches. Beach goers donate their clean, used plastic bags to the container, and the cycle continues.

- Sponsor a BlueTube for the private beach access at your condominium or hotel for $125 per year. Sponsor for 3 years and year 4 and 5 are free.
- Your guests and residents will appreciate a cleaner beach and take pride in their part in it.
- Your BlueTube sponsorship helps spread awareness of the growing problem of plastic in the ocean and funds research on ocean plastic.

Together, we can be part of the solution.

Blue Tube™
